## About HeroSpotter

Maybe we better talk out here, the observation lounge has turned into a swamp. Now, how the hell do we defeat an enemy that knows us better than we know ourselves? They were just sucked into space. Wouldn't that bring about chaos? Then maybe you should consider this: if anything happens to them, Starfleet is going to want a full investigation. You did exactly what you had to do. You considered all your options, you tried every alternative and then you made the hard choice. I think you've let your personal feelings cloud your judgement. Worf, It's better than music. It's jazz. For an android with no feelings, he sure managed to evoke them in others. In all trust, there is the possibility for betrayal. I'll be sure to note that in my log. Mr. Worf, you sound like a man who's asking his friend if he can start dating his sister. A lot of things can change in twelve years, Admiral.

*HeroSpotter is, hands-down, the best hero-spotting tool out there for birders.*

*It's the one tool I trust with my hero data. Nothing better.*
